Hello

Our focus at Dynapro is offering ethical and professional pumping solutions, always seeking to optimize industrial systems for reduced energy, water and wear parts consumption, helping our clients to reduce the industries' carbon footprint, minimize security risks, and obtain better overall results on their pumping systems.

Introduction

Introduction

Welcome

We are grateful for the interest you have shown in us by reading this document. We would like to tell you more about our history and about those who have been a key part of it.

What began in 1989 as a sole proprietorship out of our home garage has become a global business, leveraging international partnerships to create exceptional value. We are proud of the growth of our operations in Canada, and recently-launched Mexico, which has proven to be a solid project.

The experience we have gained alongside our partners has helped us provide cost-effective, best-in-class pumping solutions with a high focus on reduced energy, water and wear parts consumption to multiple facilities around the world, including projects in North America, South America, Asia, Europe and Eurasia.

Our success story remains incomplete without the support of our clients and suppliers who trusted us,

encouraged us, and challenged us to be better at what we do. Not only have you made us a part of your lives but you also helped us build long-lasting, valuable relationships around the globe.

Our dynamic growth has been driven by the relentless efforts of our team, through obsessive passion for success and unwavering commitment to our vision and core values.

An indispensable part of our history is made up of the friends we have made along the way, as well as the many amazing communities that have welcomed us. We are thankful for each of these people's love and support, and will always work to give back and contribute to a better future.

With their support, and yours, we will continue to explore new heights and build an even stronger community for many more years.

Jonathon Bell
General Director

Who are we?

A professional, trustworthy company, committed to create and maintain lasting relationships with our customers and our community. Our focus is on consistently evolving our business practices and dedicated service to always be aligned with our clients and the environment.

Our strong sense of responsibility to the environment and the communities we live and work in help encourage our clients and other companies to join forces with us to make a difference.

We manufacture our own pump models and interchangeable high quality products, improve products, and materials. We deliver them for less and faster to help achieve our goal of reduced consumption; energy & materials, and reduce maintenance.

Our client's become our friends. Together, we solve problems. Together, we share and achieve common goals. We share the love of family, food, music, and culture to name a few.

Values

Our Core Values

Our Mission

To accelerate the transition to sustainable mining by reducing consumption of energy, water and materials in Pumping Systems.

Our Vision

To create the most respected Pump Systems Company by accelerating the transition to Sustainable Mining.

Our Core Values

Evolve

I recognize that in order to always move the business forward and to best serve my customer, I need to constantly evolve how and what I'm doing, never settling for what's "good enough" or "that's how we've always done things". I am empowered and trusted to make the decisions that are best for the company and me.

Team Collaboration

I am focused on working honestly, expressing my feelings respectfully, and helping those when I see they need help. I understand that we all have different views, philosophies, genders, races, and responsibilities, however, we respect each other equally to achieve our common goal.

Passion

I am passionate about my process and my results. I know that passion drives my results and the teams. If my passion changes, I need to identify this with my coworkers to either find it, or find what better suits my true passion so I can be the best version of myself.

What we want to project.

Gratitude. We are grateful for our foundries and suppliers, our team members, our clients, for the communities and relationships to where this project has led us. All have partnered with us to make of Dynapro something special. We are more than a company. With our partnerships we accomplish amazing things: Effective Problem Solving, Environmentally Concious, Incredible Delivery Times, Cost Effective, Reliable, Committed to our society and to excellence, Fun to work with!

Our voice.

We are a professional, reliable, trustworthy company. We have a strong sense of responsibility with the environment and the communities we live in and our team is always there to help and create synergy for a better future.

02

The logo.

Dynapro has been evolving for more than 32 years now, gaining great experience and developing a strong commitment to offering trustworthy and responsible solutions to our clients through a professional and ethical application engineering.

The new dynapro logo brings with it a more modern proposal, with a stronger concept that reflects the strength of its experience through these 30 years of commitment and professionalism.

With a more actual image, Dynapro evolves, and reaffirms its presence within the niche market as well. but more importantly, its commitment to continue offering a professional engineering experience, helping companies with pumping solutions to make a difference on their business and, specially, the environment.

Main graphic logo.

This will be the main graphic of dynapro as a distinctive logo, from which the entire image of the company will then develop.

Positive.

Negative.

Complementary main graphic.

Horizontal positive variant.

Horizontal negative variant.

Improper uses.

The brand must always be reproduced following corporate standards, which are indicated within this manual. This being the case, there should be no alterations.

2.2

Main font.

The corporate typeface that inspires Dynapro is the **93 Extended variant of the Helvetica Neue Lt Std typeface**, which gives the main graphic brand its iconicity, personality and voice.

The font is Helvetica Neue Lt Std, for usability reasons, as it is one of the best fonts in terms of readability, application and flexibility; in addition to having variants that can reflect the personality of the brand.

— Helvetica Neue Lt Std - *93 Black Extended*

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

1234567890@&()*?;!#

— Helvetica Neue Lt Std - *93 Black Extended Oblique*

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

1234567890@&()*?;!#

Internal use and documents.

For internal documents, the team can use the **Helvetica font**, as it is easily accessible by all employees and is very readable.

— **Helvetica - Regular**

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890@&()*!#

— **Helvetica - Oblique**

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890@&()*!#

— **Helvetica Neue Lt Std - Bold**

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890@&()*!#

— **Helvetica Neue Lt Std - Bold oblique**

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890@&()*!#

NOTE: For use in devices where Helvetica is not a default font, it can only be replaced by Arial and its respective variants. This only for internal or formal documentation.

Advertising & editorial.

For advertising media and documents, we will use the same **Helvetica St Ltd** together with its Extended variant and its different weights (Light, Medium and Bold. In some cases for display it can be used in Black weight as we see in the logo).

— **Helvetica Neue Lt Std - 43 *Light Extended***

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890@&()*?;!#

— **Helvetica Neue Lt Std - 63 *Medium Extended***

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890@&()*?;!#

— **Helvetica Neue Lt Std - 75 *Bold***

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890@&()*?;!#

— **Helvetica Neue Lt Std - 93 *Black Extended***

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890@&()*?;!#

2.3

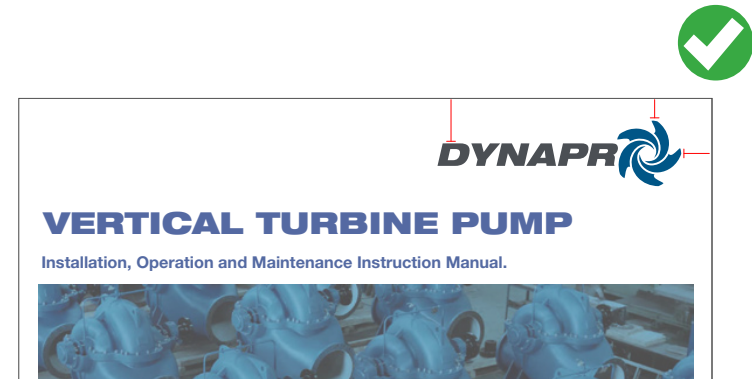

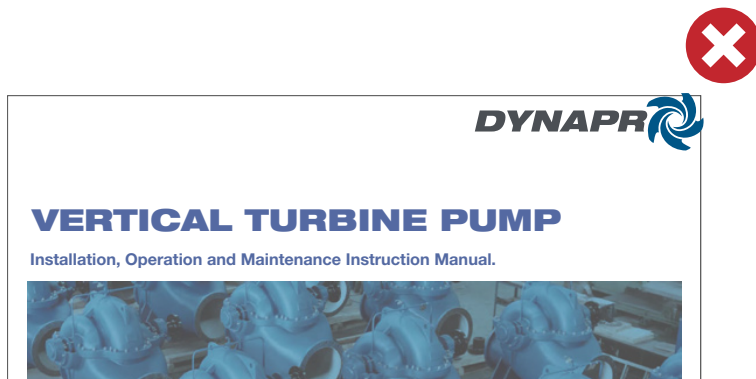

Usage standards.

Both the logo and the corporate elements of the brand must be treated under standards that allow maintaining a professional corporate image and not disregarding them in order to continue representing Dynapro in the most efficient way.

Alignment.

It is advisable to maintain a protection zone based on the size of the typography, to avoid overlaps with other elements and to maintain good alignment. (There may be exceptions depending on your application).

Minimum measure of reduction.

Both the logo and the corporate elements of the brand must be treated under standards that allow maintaining a professional corporate image and not disregarding them in order to continue representing Dynapro in the most efficient way.

It is recommended not to reduce the logo to less than 2 cm.

Chromatic usage.

Logo application on corporate colored backgrounds.

Chromatic usage.

Facebook

The image shows a screenshot of the Dynapro Pumps Facebook profile. The cover photo features five employees standing in a warehouse, with the Dynapro logo and the text "Your ideal partner in Pumping Systems" overlaid. The profile picture is the Dynapro logo. The bio states "@dynapropumps.en · Commercial & Industrial Equipment Supplier" and includes a "Call Now" button. The navigation bar shows "Home", "Reviews", "Videos", "Photos", and "More". The "About" section includes the address "830 Lakeshore Road, Mississauga, ON, Canada L5E1E1", a map, and text about their mission. The "Create post" section has options for "Photo/video", "Check in", and "Tag friends". A post from May 5 at 9:05 AM features the text "Great things are rarely achieved by just one person. #TeamCollaboration #mining #PumpingSystems #Engineering" and a photo of three workers in a warehouse.

Advantages:

We appreciate the opportunity to present our proposal and work with

We are a Canadian pump company with more than 40 years of experience. With multiple locations in North America, we have several competitive advantages to ensure you're making the best decision in purchasing our equipment:

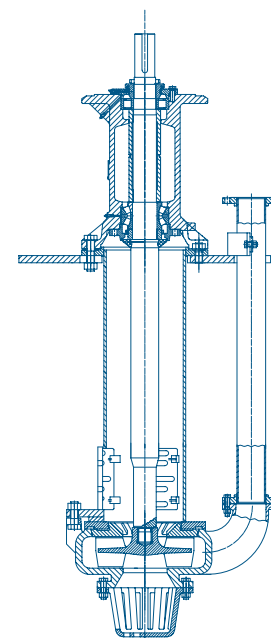

- Factory direct sales.
- Specialized technical attention in the selection of materials resistant to corrosion and abrasion to reduce our environmental impact.
- Technical Support for the majority of pumping applications.
- Large stock of spare parts in our warehouses in Mexico and Canada.
- Our pumps go through performance tests and our parts are inspected before any delivery ensuring excellent quality.
- 100% interchangeable OEM equipment and parts.

Our ideal client wants to reduce their total cost of ownership with an environmental conscience.
